

# Tomato Genes Up at Stage 1

Biological Process

- GO:0007018, microtubule-based movement
- GO:0006355, regulation of transcription, DNA-templated
- GO:0032147, activation of protein kinase activity
- GO:0060236, regulation of mitotic spindle
- GO:0006468, protein phosphorylation
- GO:0009611, response to wounding
- GO:0009095, aromatic amino acid family biosynthetic
- GO:0030261, chromosome condensation
- GO:0006559, L-phenylalanine catabolic process
- GO:0045492, xylan biosynthetic process
