

Tomato Genes Down at 15DPA

Biological Process

GO:0007018, microtubule-based movement
GO:0006355, regulation of transcription, DNA-templat
GO:0032147, activation of protein kinase activity
GO:0060236, regulation of mitotic spindle
GO:0006468, protein phosphorylation
GO:0009611, response to wounding
GO:0009095, aromatic amino acid family biosynthetic
GO:0030261, chromosome condensation
GO:0006559, L-phenylalanine catabolic process
GO:0045492, xylan biosynthetic process
GO:0000165, MAPK cascade
GO:1904668, positive regulation of ubiquitin
GO:0006558, L-phenylalanine metabolic process
GO:0006334, nucleosome assembly
GO:0007275, multicellular organism development
GO:0009060, aerobic respiration
GO:0030244, cellulose biosynthetic process
GO:0005975, carbohydrate metabolic process
GO:1901607, alpha-amino acid biosynthetic process
GO:0000070, mitotic sister chromatid segregation
