

Tobacco Genes Up at Stage 1

Biological Process

GO:0009909, regulation of flower development

GO:0006355, regulation of transcription, DNA-templated

GO:0000727, double-strand break repair via break-induced replication

GO:0006267, pre-replicative complex assembly

GO:0044772, mitotic cell cycle phase transition

GO:0006833, water transport

GO:0006270, DNA replication initiation

GO:0006268, DNA unwinding involved in DNA replication

GO:1902182, shoot apical meristem development

GO:0031118, rRNA pseudouridine synthesis
